CARRIER OBJECTIVE

Web developer with 5+ years of experience, currently working part-time as a WordPress engineer for WPBuffs(a US based company). I am confident that the skills and experience I have gained over the past 5 years will make me an ideal candidate. I would like to bring to your company the qualities that my previous employers have found in me: versatile skills, quick learning, integrity, results-oriented, works smart, and a willingness to always satisfy clients.

WORK EXPERIENCE

WordPress Engineer   oct. 2021 - Present
WPBUFFS
- Work alongside fellow developers to achieve individual, and more importantly, team goals.
- Contribute to the maintenance, monitoring and securing of 700+ websites.
- Perform daily checks and troubleshoot issues on our clients' websites.
- Perform weekly updates for 10+ websites.
- Deliver exceptional results in a timely manner.
- Get clients to leave positive reviews for the company on Google and Trustpilot.
- Several times, I was able to solve some websites issues that even our most competent developers could not solve.

Web Developer   oct. 2017 - Present
Freelance
- Write and maintain python scripts.
- Consult with clients to develop and document website requirements.
- Prepare mock-ups and storyboards.
- Create client side applications and web sites that meet customer requirements.
- Manage Projects and understand project constraints (deadlines, budget, expectations).
- Master CMS tools (Wordpress, Webflow, Shopify), Framework and code editing tools: Next JS, Django, VS Code...
- Design and develop a website: design, modeling and architecture of applications, methods, standards, languages and development tools, web programming languages, standards and security procedures...
